In recognition of the important role that sport and physical activity plays in the lives of girls and women, we the above commit our organisation to the 10 Principles of the Brighton plus Helsinki 2014 Declaration on Women & Sport. Our organisation will work toward fulfilling the Principles, so women and girls have equity of opportunity to participate, compete and build careers within our organisation and sporting system.

We share the vision of the International Working Group on Women & Sport: to create “a sustainable sporting culture based on gender equality that enables and values the full involvement of girls and women in every aspect of sport & physical activity.”
